MEGA BLASTOISE

GEN 1 BATTLES • 2 PLAYERS • 3 VS 3

YOUR CONTROLS

CORNER BUTTON = CORNER MOVE!

TAP = choose it
HOLD = inspect it

The 3 party buttons switch your Pokémon.

HOW TO PLAY

1. Tap any button to ready up (tap again to bail).
2. Both trainers ready? 3... 2... 1... GO!
3. No rival? HOLD any button in the lobby and a robot rival plays the other side.
4. Every battle deals each trainer 3 random Pokémon. New round, new team!
5. Each turn, tap a corner button to use that corner's move, or tap a party button to switch.
6. Fainted? Your party buttons pick the next fighter. No move buttons until you do!
7. Locked in too fast? You have 1 second after both sides commit to tap again and rethink.

ARENA RULES

- Faster Pokémon strike first. Speedy sprites literally bounce faster on screen.
- True Gen 1 rules: type matchups, wild crits, PSN, BRN, PAR, SLP, FRZ. Only Fire thaws a Freeze.
- Hyper Beam is mighty, but you must press RECHARGE and sit out the next turn.
- Your LED is your HP: green, then yellow, then red.
- **Last Pokémon standing wins the match!**

Bored? Leave it alone for 15 seconds and it battles itself.
